

8. Athel Pines and kei apple hedge

A gloomy grove of trees, planted 1940's or 50's, they are an invasive species.

Surrounding the Green Waste centre, a kei apple hedge, bearing bitter orange fruit in summer months.

9. Exercise equipment

This is just one of four locations on the Uni loop with exercise equipment.

10 Avenue of Lemon-scented gums

Planted in the 1970's. Despite its common name this species *Corymbia citriodora* is not a eucalypt.

11. Uni sports grounds

Uni sports teams have been using these fields since 1910. The fields are available to the public when not being used for scheduled sport.

Lawn tennis courts nearby can also be booked by the public.

12. Graduates clubrooms

Built in 2014 to replace a small 1923 shed, its size and extent of private facilities created some tension between MacKinnon Pde residents, the City Council and the University. The clubrooms can be hired for private functions, workshops or seminars.

WHO ARE WE?

The Adelaide Park Lands Association is a community-based, non-profit organisation.

We help you **explore** with Guided Walks, and **inspire** you with art and images, as we **protect**, and **restore** Adelaide's unique, National Heritage-listed irreplaceable garland of Park Lands.

Please join us, as a member, to support our work, and enjoy free participation in our regular Guided Walks

EXPLORE

Bullrush Park / Warnpangga (Park 10)

Scan the QR code on the back of this leaflet for the full Trail Guide

This Trail Guide traverses traditional lands of the Kaurna people. We acknowledge and pay respect to the past, present and future traditional custodians and elders of this land.

1. Naming

The name means the same in English and in the Kurna language: the location of bullrush roots. At this corner, a soldiers memorial dedicated to locals who died in WW 1

2. Uni loop run

A popular 2.2 km running loop around the park perimeter.

3. Historic Uni grandstand

Built 1930, and refurbished 2018 to correct a 5% lean and extensive salt damp.

4. Sand Carters Road

Constructed in the 1860s as a route for sand carters to access the river. Sand mining ended in the early 1900s, after causing great damage to the river banks..

5. Moreton Bay fig tree

One of two such trees in this Park, planted approximately 1860's or 1870's.

6. Adelaide Archery Club

Located here since 1950, archery Olympic champions have trained here. Watch out for red flags when the field is in use!

7. Green waste recycling and mulch centre

A City Council facility: open to the public to dump organic material and to purchase mulch or compost. This site was chosen in 1839 as the preferred Botanic Garden site but the Garden was moved (to its current site) some 17 years later.

Later, in 1918, this site was fenced to become a "Deer Park" but no deer were ever kept here.

1927 map showing proposed 'Deer Park' fenced but not occupied!
